KEY

BR-Bare Root

POT-Potted Up

SF-Self fertile does not require a pollinator

SF*-Self fertile but will yield a bigger crop if 2 varieties are present

RP- Requires a pollinator of a different variety IE: Honeycrisp apple pollinates Fuji and vice versa

M27-Mini Dwarf graft. Can be maintained from 6-8'

Dwf-Dwarf graft can be maintained from 10-12'

Semi-Semi Dwarf graft can be maintained from 15-18'

Combo-More than one variety of fruit grafted to the same tree.

Espallier-Trained to grow in a flat plain against a wall, fence or structure. Available in 2 or 3 tier and most have multiple varieties.

Own root-not grafted, grown on its own root stock

Freestone-Fruit (peach) whose flesh does not adhere to pit.

2010 FRUIT

253.845.7359

Spring crop-Bear only a large crop in spring
Everbearing-Bears multiple crops
